TECHNICAL SKILLS

Languages & Frameworks: JavaScript, TypeScript, React, HTML5, CSS3, SQL, Groovy, Grails, Node.js, Express
Tools & Databases: PostgreSQL, MySQL, Knex.js, Zustand, Docker, Postman, Git, GitHub, Figma, Tailwind

EXPERIENCE

Software Engineer Intern | *Groovy, JavaScript, React, Grails, MySQL, Testing, QA*   Jun 2024 – Aug 2024
TodayTix Group   New York, NY
- Delivered a successful internship project resulting in the creation of over 10,000 rewards for users using SQL queries/scripts and code on our backend to maintain the creation of rewards for customers
- Developed a system that streamlined replication for developers, ensuring future scalability of the project
- Collaborated with key stakeholders on my internship, ensuring successful integration and execution of the rewards system
- Contributed to the successful on-time launch of a rewards program by developing and implementing a backend lottery multiplier feature with Groovy, positively impacting over 500,000 users
- Supported engineering team operations as a full-fledged engineer by handling tickets, conducting QA, writing technical documentation, participating in team meetings and ensuring high-quality releases through effective collaboration

Starbucks Barista / Trainer | *Customer Service, Teamwork, Problem Solving*   Jan 2022 – Jan 2023
Starbucks   New York, NY
- Leveraged exceptional communication skills to consistently deliver prompt and friendly customer service, efficiently serving a high volume of customers daily at the district's busiest Starbucks location
- Played a key role in significantly improving our location's customer connection score by over 20%, actively engaging with customers, and fostering positive interactions

PROJECTS

HealthSync | *JavaScript, React, Express, PostgreSQL, CSS, Tailwind, Zustand, Git*   Feb 2024
- Spearheaded a community-driven fitness application, HealthSync, designed to empower Brooklyn residents in their fitness journey by facilitating seamless event creation and exploration
- Incorporated authentication and authorization features in HealthSync using Express.js and PostgreSQL, ensuring user data privacy and security throughout the platform
- Utilized Zustand for efficient state management in HealthSync, ensuring seamless data flow and application responsiveness

LeetNotes | *JavaScript, React, Express, PostgreSQL, CSS, MaterialUI, Editor.js, Git*   Jan 2024
- Constructed a web application designed to help users organize and take notes on LeetCode problems efficiently
- Implemented a sign-up and log-in feature that utilizes authentication and authorization to ensure user data privacy and security
- Employed MaterialUI and React to craft dynamic components like search bars and pagination, improving user navigation in the LeetCode catalog sourced from the LeetCode API

EDUCATION

Google   New York, NY
GSWEP Software Engineering Fellowship   Mar 2024 – Jun 2024
- Selected from a competitive pool of software engineers to participate in a mentorship program with a Google SWE
- Strengthened skills in Data Structures and Algorithms through weekly assignments and meetings

The Marcy Lab School   New York, NY
Software Engineering Bootcamp   Mar 2023 – Mar 2024
- Completed 2,000 hours of coursework in web development, CS fundamentals, and leadership development
- Developed proficiency in HTML/CSS, JavaScript, NodeJS, React, Express, PostgreSQL

New York City College Of Technology   New York, NY
Course Work   Jan 2018 – Jan 2021
- Completed coursework towards an associates in construction management
- 3.5 GPA
